

Calling All Hearts to End a Technological Holocaust

(Last light editing done on May 15, 2017)

This is a call for your heart to realize a critical situation that is effecting humanity in ways that are as unusual as they are dangerous. Your awareness and help are deeply needed.

Most people are aware that radio waves can be sent down to their homes or computers, from satellites, for the purpose of internet access. But most people are not aware that these technologies can be criminally used – that beams of radio waves (microwaves) can also be directed into human beings to disrupt brain and body functions. The worst of the technological targeting is mind control, which is aided by pharmaceuticals (like antidepressants) that have been being heavily pushed upon humanity and were reported to have been found in USA public drinking water supplies in 2008. Though the immediate effects may be virtually unnoticeable to most people, the long term effects could be devastating for all of humanity if it is not stopped now. Technological and pharmaceutical mind control has been literally destroying the Heart of humanity - When we are not allowed to freely think and feel we can not fully follow our own instincts and hearts, especially when we are not aware of being mentally numbed or brainwashed. **This is truly a critical, holocaustal situation that must be stopped as quickly as possible and you can help just through being aware.**

Condensed beams of radio waves can be shot into the human brain and effect functionality in ways that range from mental numbness and confusion to sudden rounds of unusual mood swings and complete mind control - human enslavement. Radio waves shot into other parts of the body can cause physical illnesses that range from mild to lethal. A few examples are; heart attacks, lupus, leukemia, lung afflictions like COPD and asthma, brain damage – aneurisms and strokes, tumors...etc.

What's happening is so outrageously inhumane that a natural response can be to slip into shocked denial, overwhelm, or blind disbelief, but this situation needs your awareness and attention. I understand how difficult it may be to believe that this is happening, but please give it the benefit if your doubt and do all that you can to stop it from continuing.

There is documented scientific proof that experiments, on the effects of radio waves (microwaves), being shot into the human body and brain, began around the early 1900s by scientists like Nicola Tesla. The late Philip Coppens reported that *"In April 1953, CIA Allen Dulles gave a lecture at Princeton University, detailing Soviet developments in the field of mind control. He stated they were out to control the mind of free men, both individually and collectively. . . Dulles proclaimed that the Cold War was moving into a new era of psychological warfare, which Dulles characterized as the battle for men's minds. "We might call it in its new form brain warfare."* But others surely have had that capability as well. And there are now privately owned satellites "for internet purposes."

In 1961 President John F. Kennedy stated that, *"Today no war has been declared - and however fierce the struggle may be, it may never be declared in the traditional fashion. Our way of life is under attack... we are opposed, around the world, by a monolithic and ruthless conspiracy that relies primarily on covert means... There is no escaping either the gravity or the totality of its challenge to our survival and to our security - a challenge that confronts us in unaccustomed ways in every sphere of human activity."* Hints of this crisis leaked into the mainstream media in the 1970s when part of the MKULTRA mind control program and Russia's microwaving of the American Embassy were reported.

Veteran Author, Jim Keith had stated that, *"Brain-computer radio communication has long been considered impossible by the majority of people and has consequently been relegated to science-fiction, but the fact is that the technology had been developed into reality by at least the 1960s..."*

Victims of technological mind control, and other forms of microwave targeting, include media personnel, and all levels of government personnel, as well as common citizens. We should be standing up for each other since we are all in this together. (The field of medicine, from psychiatry and dental to universities and hospitals appears to be heavily involved in the targeting.) **I feel that there may be modes of technological "protection" that are actually a sly enslavement and that there may be filters built into technologies which can detect or block radio wave intrusions – filters that prevent detection or blocking of the low frequencies which are used for mind control. I hope this is investigated and remedied.**

In the severe levels of the technological mind control, unaware victims appear to have been being targeted and forced into the sadistic covert program and sworn to secrecy. Some members appear to be completely enslaved (some thought to be dead or missing) and used to help target and/or recruit fellow citizens, sometimes under the guise of it being a good thing or of it being "help" in false covert "rescues" of heavily Targeted Individuals. Some of the general brainwashing/mind control is sadistic/satanic – It pits countries, and citizens and governments, as well as family members...etc., against each other. **I beg government officials, media and citizens, in America as well as around the globe, to fully realize what is happening and let your Hearts unite into the grandest PEACEFUL, public stand for freedom that humanity has ever had to perform.** Public awareness of the technological targeting, and its deceitful covert program, can give needed validation to victims, especially those who are not aware of being targeted but are confused about what is happening to them. (Validation and understanding will also be needed for full recovery to take place after the targeting has been stopped.) Public awareness can stop the recruiting process and encourage people to at least try to follow their Hearts above all else. And it will enable victims of all levels, and their loved ones, to support each other instead of blaming each other.

Criminal use of ground and space based technologies, which can emit and direct radio waves, is probably the most dangerous thing humanity has been face with. Never, in the history of humanity, has there been a more crucial time for the Heart of humanity to rise into a strong, PEACEFUL, public stand for Freedom. Lets do it.

This truly is a critical holocaustal situation! Heavily Targeted Individuals who are aware, like myself, have been being tortured and threatened into silence, sometimes killed or abducted, because not enough people are aware of what is happening. Please do not let our suffering be in vein. Please give this information the benefit of your doubt and help restore humanity's Freedom in every peaceful way that you can. **Please copy and share this paper with as many people as possible. Gather loved ones and neighbors into supportive groups and stay as calm as possible. Avoid the sadistic secret society and follow your own Heart above all else.** Do what you can to protect yourself, especially your brain. Please help remedy the obstacle of unfiltered technologies, which can detect or block radio waves, being difficult to obtain and illegal in some countries. Pray/wish for Freedom.
